

Life Cycles, Hermetic Laws and Enneagram

by Khristian Paterhan

Enneagram is more than a typology. I have been researching this symbol for more than 20 years according to the teachings left by G.I. Gurdjieff and I have been discovering many things. Among them the relation between Enneagram and the theory of Seven Years, (seven-year life cycles) and the famous Seven Hermetic Principles from the wizard Hermes Trimegistos to whom we owe the origin of the Hermetic Philosophy.

Based on the movement of the circle of the Enneagram and in its periodic decimal I created a program that allows us to calculate the cycles of life and their relation with the seven hermetic principles and the points of Enneagram. This map will help the user to develop his personal and professional life getting what he wants more easily.

In this workshop the participants will be initiated in this process and will be able to use it more deeply in my web platform.
