# IEA Accreditation Program

The Accreditation Program is one of the most significant ways that the IEA promotes excellence, experience and integrity in the teaching and professional use of the Enneagram.

There are now approximately 283 IEA Accredited Professionals all over the world and over 80 IEA Accredited Training Programs offered and taught exclusively by our Accredited Professionals. Each IEA Accredited Training Program is sponsored by an individual IEA Accredited Professional or by one of our 23 IEA Accredited Enneagram Schools. All of these professionals and programs have agreed to abide by and share with their students the [IEA's Ethical Guidelines and Code of Ethics](#).

Click here for an [Overview of the Accreditation Program](#) and summary of the different requirements for each category of Accreditation. Additional information may be found on IEA's Website under [Accreditation](#) and application forms and instructions on how to apply may be found under [Become Accredited](#).

You may find a listing of all current IEA Accredited Professionals and Programs under "[Find a Professional](#)" on the IEA's website or under the IEA Directory on [IEA NinePoints](#).

You may also download the Requirements for each category and related application forms here:
